DISTRIBUIDOR OFICIAL

# EVE®

Meet EVE®, the all-in-one concept of table lamp designed for professional event applications.

Equipped with a **6-colour LED** - RGB Cyan Lime Amber, EVE® offers a wide choice of colours, and its many features have been designed to meet the needs and challenges of event service providers :

- > **wireless control with Lumenradio® CRMX protocol and INNLED protocols** - LAKO remotes or transmitter.
- > **over 8h autonomy** and reemployed li-ion cells
- > **wide range of accessories and customizable aspects** allowing infinite applications (open-source 3D printable designs) - textured discs, lampshades and more.
- > simple, quick and intuitive to install.

EVE® comes in a **compact case** which welcomes 12 lamps and includes everything you need to charge it directly in its case.

# EVE®

Shaping the future of **EVE**nts.

Remote controllable  
(LumenRadio® / INNLED)

Large autonomy  
8h at full

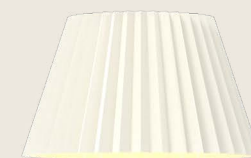

Fast set-up &  
Intuitive managing

Customizable  
100%

Sustainable  
design

## AN ALL-IN-ONE CONCEPT

EVE® comes in **one all-inclusive version**, which includes :

- > **an intelligent base, the heart**, equipped with all the technical elements : Li-ion reconditionned cells, 6-colour LED, and board with all electronical components - enabling among other things, wireless controlling.
- > **a cover disc**, which can be customized with a variety of textures (cork, wood, marble...)
- > **a diffusing magic rod**, standard size 320mm by 20mm diam.
- > **a 3D-printed lampshade**

EVE®'s intelligent  
base : the heart

## CRMX

by LumenRadio

## CUSTOMIZABLE FOR YOUR EVENT NEEDS

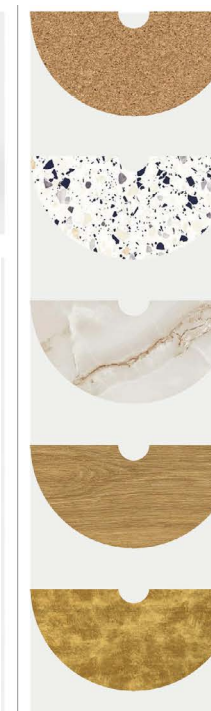

EVE®'s ambition is to equip event providers for all their events, lighting one table after another, thanks to a **100% customizable design**.

Each of EVE®'s elements can be redesigned and adapted to the colours and atmosphere of your event :

- > different designs of 3D printable **lampshades**, and **paper designs** to add to your lampshade if you wish a printed or cut-out motifs.

- > different sizes and diameters of diffusing rods
- > a variety of textures and materials to chose from and apply on the cover disc.

# EVE | SPECIFICATION SHEET

Height :  
335 mm

## TECHNOLOGY

- 6 color LED monochip

## LED POWER

- Total Red Green Blue Cyan Lime Amber : >21W

## LIGHTING SOURCE

- Max : 694 lm

## COLOUR TEMPERATURE

- White from 1800K to 9000K

## RF DMX

- Frequency 2,4GHz
- 8 DMX channels per lamp
- Dimmer Strobe Red Green Blue Cyan Lime Amber

## BATTERY AND AUTONOMY

- 3 reemployed Li-ion 3400 MA/H cells
- Autonomy : 8h 100% white
- Charge voltage : 12 to 24 V DC

## MATERIALS

- Lampshades : 3D-printed
- Diffusing magic rod : polished, cut and sanded PMMA rod
- Cover disc : steel
- Heart (technical base) : injection plastic - white satin finish

## DIMENSIONS

- Heart : Diam. 135mm, H 30mm
- Magic Rod : Diam. 20mm x 320mm
- Disc : Diam. 140mm
- Lampshade : Diam. 160mm x H90mm

## TEMPERATURE RANGE

- 0°C to +40°C

## NORMS

- IP43
- UN38.3
- CE

## WARRANTY

- 2 years
- 18 months on the li-ion reemployed cells (normal use)
