30 min

# THE ADVANTAGES.

Compact

Customizable

Fast setup

Eye-catching

Robust

Eco-smart

Multi-use

# COMPACT.

The Festival stages efficiently cut storage and transport costs, eliminating the need for large warehouses or trucks.

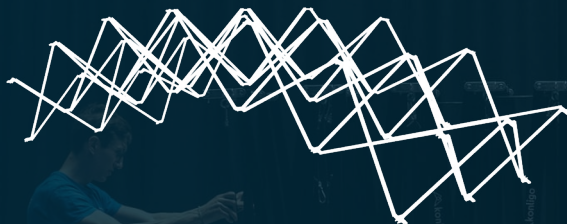

# FAST SETUP .

**30 minutes with 2 people**

is all it takes to install, cutting manpower costs and  
allowing you to serve multiple customers in a single day .

# ROBUST.

**10 Beaufort** winds (100km/h) and a load capacity of **240kg** of accessories are no challenge, ensuring consistent performance for every occasion.

# MULTI-USE .

**1 structure, 1000 possibilities**

Shape your event - convert your stage into a dome .

# CUSTOMIZABLE.

Offer branded stage membranes to your clients for  
enhanced visibility at their events.

# EYE-CATCHING.

Unveil unmatched, eye-catching beauty  
– a one-of-a-kind experience.

► ON WEEKEND

# ECO-SMART.

Designed to last, our sustainable structures use recycled aluminum and modular components, offering your customers easy maintenance, lightweight durability, and eco-friendliness.

# WHO WE ARE.

**At Konligo, we create wonder and we cultivate difference to drive change.**

We disrupt the ordinary with innovative & sustainable deployable stages, embracing a mindset that nothing is impossible, prioritizing care over profit, and enjoying every step of the journey.

We bring a new wave of multi-use stages, transforming spaces into impactful moments.

## **The style.**

Innovation is at the core of Konligo. Our R&D team designs cutting-edge, sustainable stages, with our patented rotating bars defining both form and strength for unmatched versatility.

## **The operations.**

Based in Brussels, Konligo operates across Belgium with a global network of partners and distributors. Whether you're interested in learning more or becoming a partner, visit our website for detailed information and opportunities to collaborate worldwide: [www.konligo.com](http://www.konligo.com)
