OUTDOOR PROJECTOR

Outdoor projectors face many challenges, such as dust, rain, humidity, varying temperature, sunlight radiation, severe weather, and vandalism. LM3X has been engineering and manufacturing outdoor projectors since 2012. We delivered + 200 projectors to more than 40 countries so far.

For the year 2022, we offer 2 outdoor projector models: The light and versatile L A Z R™ HDMI starts in Europe at EUR 11 990 MSRP. The fully standalone version L A Z R 4 G™ Unlimited Wireless Range costs EUR 17 990. With the power of 6K Lumens, each L A Z R™ illuminates up to 100 square meters (1000 square feet) of the surface. In the heart of the L A Z R™ projector glows the Laser DLP light source with 20 000 hours life span, enabling for long maintenance cycles.

L A Z R™ is compatible with all common digital projection tools and protocols including HDMI, Chromecast, Screen Mirroring, Madmapper, LIGHTFORM, HDBaseT, etc.

A dark, atmospheric night scene in Ostrava. In the foreground, a black street lamp pole stands prominently, with a white, octagonal camera or sensor unit mounted on it. A yellow cable runs down the pole. To the left, a multi-story brick building is partially visible, with some windows showing interior lights. In the background, a dark, modern building with large glass windows is visible, reflecting some light. A car is parked in the shadows on the right side of the frame. The overall mood is mysterious and cinematic.

Wi-Fi Screen Sharing

Simple, affordable, and very capable set-up for local wireless screen mirroring, photo sharing, presentations, movies, video stream, TV, music video, etc.

*This set-up requires L A Z R™ accessories: Wi-Fi Plastic Shield

*This set-up requires 3rd party accessories: Chromecast or similar device

Wi-Fi

chromecast

or a similar device

Power

110 - 230V ~ 550W

To preserve outdoor ingress protection, use original NEUTRIK IP65 connectors.

L A Z R

HDMI Short Cable

Simple set-up compatible with a wide range of computers.
Use your PC or Mac, plug-in HDMI, and play.

Multiprojection and edge-blending are available via an external computer with multi-HDMI graphics output and with the use of 3rd party mapping software such as Madmapper, Resolume, Watchout, etc.

*This set-up requires an external media player

Power

110 - 230V ~ 550W

To preserve outdoor ingress protection,
use original NEUTRIK IP65 connectors.

HDMI™

HDBaseT Long Cable

HDMI cables mentioned previously, are limited in length. In case the distance between the computer and the L A Z R™ projector exceeds 15 meters / 50 feet, we recommend using the HDBaseT Converter near your computer and convert the HDMI signal to an HDBaseT signal. The HDBaseT protocol allows for 100m / 330 ft cable length. (800 m / 2625 ft with 8x multi hops)

Multitprojection and edge-blending are available via external computer with multi-HDBaseT graphics output and with the use of 3rd party mapping software such as Madmapper, Resolume, Watchout, etc.

i: French company Videmus has presented a media server using Dataton WATCHOUT with six channels HDBaseT output integrated.

*This set-up requires an external media player

Power

110 - 230V ~ 550W

To preserve outdoor ingress protection, use original NEUTRIK IP65 connectors.

HDMI™

LIGHTFORM Mapping Kit

LIGHTFORM is the well-known projection-mapping tool from California. The LIGHTFORM LFC Kit can be easily integrated into the L A Z R™ outdoor projector and thus freely used outdoors. Local Wi-Fi or LAN control is available.

*This set-up recommended L A Z R™ accessories: Wi-Fi Plastic Shield

*This set-up requires 3rd party media player: LIGHTFORM LFC

Wi-Fi

Power

110 - 230V ~ 550W

To preserve outdoor ingress protection, use original NEUTRIK IP65 connectors.

LAN optional

miniMAD by Madmapper

Videomapping pioneers from Switzerland brought to the world the very affordable and quite capable Raspberry Pi based mapping player called miniMAD. It works smoothly with their state-of-the-art Mad Mapper video-mapping software. miniMAD uses a plug-in SD card for media storage.

*This set-up requires 3rd party media player: miniMAD by Madmapper

#events

#light design

Affordable miniMAD includes multiprojection support. The manufacturer warns, that the miniMAD multiprojection is not precisely frame to frame synchronized and that if using fast image transitions minor lag between screens might be noticeable. Cable LAN connection required for miniMAD multiprojection.

Power

110 - 230V ~ 550W

To preserve outdoor ingress protection, use original NEUTRIK IP65 connectors.

LAN optional

4G Wireless Remote Mapping

You can access your L A Z R 4G™ all over the planet and control the projected media in real-time. This set-up enables Full Remote Management and support services.

2-Channel Internet Connection available for improved reliability (Wired and/or 4G Wireless), at least 1 Channel Unrestricted Internet required for system operation.

L A Z R 4G™ Features

- PLAY / STOP / SCHEDULE Simple Mapping Player
- Mapping Scanner
- Mapping Tools
- Remote UI Media Upload & Management
- Remote UI Calendar & Clock for Playback Scheduling

Control device (PC, Mac, Android, iOS)
Internet access and Chrome browser required to access L A Z R 4 G UI

EN 61000-4-11:2004,

Declaration of RoHS2 Compliance

Product: OUTDOOR PROJECTOR
Trade Name: LUMITRIX
Machine Type: T4

This product has been designed and manufactured in compliance with Directive 2011/65/EU of the European Parliament and the Council on restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS2 Directive) and is deemed to comply with the maximum concentration values issued by the European Technical Adaptation Committee (TAC) as shown below:

Substance	Proposed Maximum Concentration	Actual Concentration
Lead (Pb)	0.1%	< 0.1%
Mercury (Hg)	0.1%	< 0.1%
Cadmium (Cd)	0.01%	< 0.01%
Hexavalent Chromium (Cr6+)	0.1%	< 0.1%
Polybrominated biphenyls (PBB)	0.1%	< 0.1%
Polybrominated diphenyl ethers (PBDE)	0.1%	< 0.1%

Certain components of products as stated above are exempted under the Annex III of the RoHS2 Directives as noted below:

Examples of exempted components are:

1. Mercury in cold cathode fluorescent lamps and external electrode fluorescent lamps (CCFL and EEFL) for special purposes not exceeding (per lamp):
 - (1) Short length (≤ 500 mm): maximum 3.5 mg per lamp.
 - (2) Medium length (> 500 mm and $\leq 1,500$ mm): maximum 5 mg per lamp.
 - (3) Long length ($> 1,500$ mm): maximum 13 mg per lamp.
2. Lead in glass of cathode ray tubes.
3. Lead in glass of fluorescent tubes not exceeding 0.2% by weight.
4. Lead as an alloying element in aluminium containing up to 0.4% lead by weight.
5. Copper alloy containing up to 4% lead by weight.
6. Lead in high melting temperature type solders (i.e. lead-based alloys containing 85% by weight or more lead).
7. Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound.
